

6+ years of experience in the Healthcare and Life Sciences domain, with 5+ years of hands-on expertise in Salesforce and Veeva CRM as a Developer and Administrator, delivering scalable and business-critical solutions.

WORK EXPERIENCE

PricewaterhouseCoopers AC, Hyderabad

Designation: Senior Associate | Role: Sr. Developer

(February'26 - Present)

- Developed and enhanced Salesforce solutions using Apex, LWC, and Flows for enterprise client requirements
- Built and executed unit tests ensuring >75% coverage, validating complex business scenarios
- Supported CI/CD deployments and release activities using Copado across multiple environments, including pull request reviews, peer code reviews, conflict resolution, and large-scale back promotions for ~225 user stories, while ensuring adherence to PMD coding standards and deployment best practices.

Bristol Myers Squibb, Hyderabad

Designation: Software Engineer II | Role: Sr. Developer

(December'24 - January'26)

- Developed proof-of-concept (PoC) implementations for various requirements to support business use cases and enhance user engagement and delivered detailed product demonstrations to global markets for Veeva CRM modules, including Time Off Territory, Advanced Coaching Reports, and User Surveys.
- Designed and developed a custom competency assessment solution using Lightning Web Components (LWC) for field users, enabling in-system evaluation, tracking, and reporting within Salesforce, and replacing an external third-party assessment tool.
- Demonstrate strong communication, direct customer interaction, and interpersonal skills.
- Collaborated with cross-functional teams to deliver high-quality solutions, meeting project timelines and expectations
- Comprehensive software engineering experience, including use of functional specifications, use case creation, requirement gathering, and data modeling to analyze, design, and implement project requirements.

Cognizant, Pune

Designation: Associate - Projects | Role: Sr. Developer

(April'23 - November'24)

- Extensive hands-on on **Veeva Event Management** module.
- Built a bulk update feature using LWC, reducing manual effort by ~70% and improving operational efficiency
- Utilized Agile methodologies to manage projects and deliver iterative improvements.
- Earned appreciations for delivering high-quality work and exceeding expectations.

Tata Consultancy Services, Pune

Designation: Systems Engineer | Role: Developer

(July'19 - April'23)

- Implemented Salesforce configurations including objects, workflows, validation rules, and dashboards
- Worked across multiple **Veeva CRM modules** including Call Reporting, Events, and Territory Management
- Designed and managed **security models (roles, profiles, sharing settings)**
- Automated business processes using workflows and approval processes
