NORDAVO · CANDIDATE POLICY

Video Privacy & Retention Policy

What Nordavo does with the 5-minute video candidates record for us, who can watch it, where it is kept, and how to have it deleted.

IN SHORT

A short video is a required part of applying to Nordavo. It is used only to judge how clearly you communicate in English, not your lighting, background or equipment. Only the Nordavo recruitment team can watch it, apart from the client for the role you applied to, who may see it as part of our normal process. We delete it within 4 weeks after your application ends, and we keep it for up to 12 months only if you agree. You can ask us to delete it at any time by emailing info@nordavo.nl. The sections below give the full detail.

VERSION	0.2 (draft for review)
EFFECTIVE DATE	On approval by Management
LAST REVISED	15 October 2026
NEXT REVIEW	12 months after approval
POLICY OWNER	Management / HR — Nordavo
APPLIES TO	All candidates who submit a video to Nordavo

01 PURPOSE

A short video, about five minutes long, in which you speak in English, is a required part of applying to Nordavo, because clear spoken English matters in the roles we recruit for. Many candidates reasonably ask what happens to that video once they have sent it. This policy answers that question in plain terms.

It sets out what we use the video for, who can watch it, where it is stored, how long we keep it, and how you can have it deleted.

02 SCOPE

This policy covers every video submitted to Nordavo through our video form or any other recruitment channel, and every copy, note or recording derived from it. It applies to all candidates who apply to Nordavo from India.

03 WHAT WE USE THE VIDEO FOR

We use your video for one purpose: to assess your spoken English and how clearly you communicate, as part of your application for a role Nordavo is recruiting for. We do not use it for marketing, training material, social media, or any purpose unrelated to your application.

What we look at:

- How clearly you express an idea, and whether a listener can follow it.
- How well you structure what you say, and whether you answer the question asked.
- Comfort and accuracy in spoken English at a working level.

What we do not judge:

- Lighting, camera quality, background, microphone or editing. A phone recorded at a desk is fine.
- Accent, appearance, clothing, age, gender, ethnicity, health or any other personal characteristic.

We do not use facial recognition, emotion detection, automated scoring or any other automated analysis on your video. We do not upload it to AI transcription or AI assessment tools. A person at Nordavo watches it and decides, and that person is accountable for the decision.

04 WHO CAN WATCH IT

The Nordavo recruitment team and Management can watch your video, and the client can watch it as part of our normal recruitment process. Everyone watches through a restricted link. We do not give a copy of the video to anyone; the link is for watching only. We do not share it with anyone else outside Nordavo.

Our team does not download your video to personal devices or send it by email, chat or messaging apps.

05 WHERE IT IS STORED AND WHO HAS ACCESS

Your video is stored in our internal database.

Within the database, videos are kept in a restricted area that only the named recruitment team members can open. Access is by individual login with two-factor authentication. Nordavo does not share logins. Technical administrators of our internal database do not watch videos, except where needed to resolve a security or technical incident, and then only with Management approval.

06 HOW LONG WE KEEP IT

We keep your video for as short a time as we can. The periods below are maximums.

SITUATION	WHAT HAPPENS TO THE VIDEO
Application in progress	Kept while we are assessing your application.
Not selected, or you withdraw	Deleted within 4 weeks of the end of the process.
You are hired or placed	Deleted within 4 weeks of your start date. It is not part of your employment record.
Talent pool (only with your consent)	Kept for up to 12 months from the date you agree. We then delete it, unless you agree again.
You ask for deletion or withdraw consent	Deleted within 30 days of your request.

Being in the talent pool is entirely optional. We ask separately, we do not tick the box for you, and declining does not affect your current application. Deletion means removal from our internal database itself, including its trash, record history and snapshots, and any copy held elsewhere by Nordavo. We run a monthly check to catch videos that have passed their retention period.

07 YOUR RIGHTS AND HOW TO ASK FOR DELETION

You can ask us at any time to delete your video, to tell you whether we hold it and what we have done with it, to correct related information, to withdraw a consent you gave, or to object to how we use it.

To make a request:

- Email info@nordavo.nl with the subject line “Video deletion request” and the name and email address you applied with.
- We confirm receipt within 5 working days and complete the request within 30 days. We then confirm in writing that the video has been deleted.
- We may ask you to confirm your identity so that we do not delete or disclose the wrong person’s data.

Deleting your video ends our ability to assess your spoken English, so it may end your application for that role. It does not affect any other part of your relationship with Nordavo unless you ask us to delete that too.

If you have a concern or complaint about how we handle your video, write to info@nordavo.nl with the subject line “Video concern”. We reply within 30 days.

08 LEGAL BASIS

Nordavo works from Groningen and Bangalore, so two laws govern how we handle your video: the EU General Data Protection Regulation (GDPR), as applied in the Netherlands, and India's Digital Personal Data Protection Act, 2023 (DPDP Act). We meet the requirements of both.

Under GDPR (Netherlands / EU) we rely on:

- Our legitimate interest in assessing communication skills and sharing them with the client for the role, to match candidates with suitable roles (Article 6(1)(f)), balanced against your privacy through the limits in this policy.
- Your consent for keeping your video in the talent pool (Article 6(1)(a)). You can withdraw consent at any time.

Under the DPDP Act (India) we rely on:

- For assessing your application and sharing your video with the client for the role: the video is a required part of applying, and you give it to us voluntarily for that specific purpose after reading this notice. This is a "legitimate use" under the Act.
- For the talent pool: your separate consent, which you can withdraw as easily as you gave it.

Most of the DPDP Act's duties for organisations such as Nordavo become enforceable on 13 May 2027. We apply its standards from now, so that you are treated the same way before and after that date.

Your video is not used to identify you biometrically, and we do not ask you to say anything about health, ethnicity, religion or other sensitive topics. If such information appears incidentally, we do not use it.

09 HOW WE LOOK AFTER YOUR VIDEO

Everyone at Nordavo who can see your video is bound by our confidentiality obligations, which continue after they leave. In practice, this means:

- Your video is watched only for your application, and only in the systems we have approved for this.
- Any notes we make about it are factual and about communication, never about your appearance or personal characteristics.
- Videos past their retention period are removed, and we act on deletion requests within the deadlines above.

If your video is ever lost, misused or shared without authorisation, we investigate straight away. Where the law requires, we tell you and the authorities.

10 CHANGES AND QUESTIONS

We review this policy at least once a year, and whenever our tools or the law change. If a change affects how we treat videos you have already sent, we tell you before it takes effect. Questions about this policy can be sent to info@nordavo.nl.
